It can be used for cleaning floors, walls, drains, cutting tables, packing fillers, conveyors and other handling equipment. Used to effectively clean a variety of grime, soil, grit, grease, and other unwanted substances on different types of surfaces such as glass, plastic and soft metals, such as aluminum.

Composition

Blend of active surfactants, alkaline cleaner, and inorganic disinfectant

Properties

GENERAL INFORMATION

FORM	Liquid
ODOUR	Characteristic\ Odorless
COLOR	Characteristic
pH	Strong alkaline formula
VISCOSITY	17090 M.PAS

Package

Available in 5-10-25-60 kg Gallon.

Shelf life

3 years when in unopened containers.

Storage

Store in original closed containers, away from sunlight and extreme temperatures.

Benefits

- Multipurpose detergent designed for effective performance in a wide variety of manual cleaning operations.
- Applicable for different surfaces in pharmaceutical industries, food processing industries, and plants in general.
- Cleaning and pre-sanitation in one step, where it reduce load of contamination and organic materials.
- Helps prevent build-up of protein film.
- Effective in hard and soft water.
- Conforming to EU directives 423/2005

Application

- Multi-purposes Detergent used diluted 10-15% (warm water is preferred) for best results, it can be applied by manual cleaning tools or by low pressure foam gun and remain on the surface for short period then rinsed with water.
- Suitable for use in industry, commercial and domestic applications.
- It is also suitable for cleaning utensils and surfaces used in food preparation.
- If used in edible product areas, rinse product contact surfaces with potable water.
